## *Qi-Mag® Feng Shui-project: restaurant-pub:*

*The first restaurant-pub in Belgrade / Serbia, performed by the system „key in hand“. The pictures show an example of the complete exterior and interior design with additional decorations, colors, lighting, furniture and Feng Shui corrections. The object is decorated with open wooden windows and street light candelabra, in order to get a very pleasant ambience visible from the street. Guests enjoy sitting in the garden. This location was a great challenge to work with as it was a warehouse place taken in a very poor condition.*

**The agreement in cooperation with the new owner included:**

- revival of space
- energy work
- complete renovation project
- design of furniture

**In addition to the external and internal regulation, a complete branding of the company was made, which included:**

- the name
- logo design
- creation of advertising flyers and price lists
- stamp-making
- and, determining of the date of commencement of the catering facility

*The revival of space, energy work, complete project planning and the adjustments resulted in beautiful, pleasurable surroundings.*
